

HERMES manipulator

“All metal” linear precision motion feedthrough. UHV compatible. Bakeable. 25-50-100mm travel. Available with either pneurop or conflat flanges. Manual and motorized versions. Lock.

PROMETEO manipulator

“All metal” rotary precision motion feedthrough. UHV compatible. Bakeable. Available with either pneurop or conflat flanges. Manual and motorized versions. Lock.

TESEO manipulator

Z compact axis with diaphragm bellow. UHV compatible. Bakeable. Available with CF40 or CF16 flanges. 25-50-100mm travel.

We also offer the possibility to combine “teseo” and “prometeo”'s features in one single component. Motorized version available.
